SUMMARY

Full Stack Developer with **1.5+ years of experience**, delivering real-world projects including a **Travel Booking Platform, Crypto Application,** and **AI SaaS product**. Skilled in **React, Next.js, Node.js, and MongoDB**, with hands-on experience in both frontend and backend development. At DigiHook and VOCSO, I optimized performance and user experience, enhancing efficiency and scalability. Passionate about **clean code**, **problem-solving, and building impactful digital products**.

EXPERIENCE

Software Developer

DigiHook

📅 10/2024 Present   📍 Greater Noida

- Architected and deployed scalable **Inventory and Office Management Systems**, streamlining workflows and reducing manual processes by over 40%
- Built a complete **Travel Booking Platform** – www.totravelistolearn.in, similar to MakeMyTrip/Golbibo, using **Next.js, Node.js, MongoDB,** Tailwind CSS**,** with a dedicated **Admin Panel** to manage Blogs, Itineraries, Bookings, Users, Reviews, and Leads. Hosted on **AWS** with production security and performance optimization.
- Developed a **Blockchain-based Crypto Betting Web App** allowing users to stake **USDT (TRC20)** spin a virtual wheel, and earn crypto rewards. Integrated secure wallet connections and reward logic.
- Designed responsive, high-performance UI/UX interfaces using **ShadCN & Tailwind CSS**, boosting user retention by 25%.
- Implemented **SSR**, **caching strategies**, and MongoDB **optimizations**, enhancing loading speed and scalability.
- Improved team productivity through **Git workflows and Agile methodologies,** achieving a **20%** faster development cycle.

Software Developer

VOCSOTechnologiesPvt. Ltd

📅 04/2024 09/2024   📍 Faridabad

A technology company focused on web development and digital solutions

- Developed and optimized high-performance websites using **Next.js, Node.js, and PostgreSQL**
- Enhanced SEO and visibility for educational platforms by implementing structured **data and performance optimizations**
- Designed fully responsive UI/UX interfaces using **ShadCN** and **Tailwind CSS**
- Automated deployment workflows with **GitHub Actions** and **AWS**, ensuring 99.9% uptime
- Optimized **database security** and efficiency in PostgreSQL and **MongoDB**

EDUCATION

BTech in Computer Science and Engineering

Vishveshwarya Group of Institutions

GPA
7.6 / 10

📅 08/2020 05/2024   📍 Greater Noida

KEY ACHIEVEMENTS

☐ **Innovative Software Development**
Successfully architected and deployed scalable applications that improved operational efficiency and user satisfaction across multiple projects

SKILLS

Technical Skills

React   NextJS   NodeJS   Python

Database/Cloud

MySQL   PostgresSQL   MongoDB

Firebase   AWS

Tools

Postman   Docker   GitHub   APIs

AI Tools

PROJECTS

Editzen Web App

🔗 https://editzen-vert-alpha.vercel.app/

A **SaaS web application** featuring advanced image editing capabilities

- Developed an **AI-powered SaaS web** application with advanced image editing tools.
- Integrated **Clerk.js** for **secure authentication** and **Stripe** for payment processing
- Built with **Next.js** and **TypeScript** for scalability, using **MongoDB** for optimized data storage
- Designed responsive, user-friendly interfaces with **ShadCN** and **Tailwind CSS**
